## Forward

I am pleased and honored on the occasion of publishing the 10<sup>th</sup> Annual Report 2010-11 of our organization Developmental Association for Human Advancement-‘DEHAT’.

When we came into being, we were entirely unaware from the word NGO, but we had a motto to transform the picture of under privileged and deprived people into an improved and sagacious society.

We were motivated for social work after seeing the badly harassed residents of Forest Villages of Bahraich, U.P. As the proofs reveal, they were accommodated by the Forest Department for the purpose of labour work in the interest of the department as ‘Begari’. They were allowed to live on forest land and grow the food-grains for survival, but they were deprived of having right to construct a concrete house and sale or purchase of their land. Their children were specially affected from the situation. Contrary to all the basic rights offered by the Constitution of Sovereign India, they were not even allowed to live like a human being and enjoy the facilities available in the environment. They were being treated as fourth grade citizen in their own land. Majority of the children were in capture of malnutrition and out-of school. The villagers could not apply for any Government job because they were not from Revenue village.

We started our work since far before inception of association. In beginning some enthusiastic youth from these undeveloped areas were united and we formed a group for social change and intensive awareness movement about the rights to these forest villagers. After that ‘DEHAT’ has risen due to its honest policy of working with full of positive attitude.

‘DEHAT’ has proven its significance for development of beneficiaries in target areas during 2010-11. Our organization made sincere efforts to revolve the situation towards the right direction with full of our experiences, technical ability and hard work. Our smooth functioning is reflecting a good result, because we decide the yearly plan of action of the activities in beginning of every financial year. Our staffs are technically sound and capable to deliver their knowledge to motivate target groups cleanly. Our organization has formed core committee for deciding working strategy and implementation of work plan in project areas. This committee contains of project incharges and second level staffs of each project. This core committee decides plan of action per month in a meeting on every first day of the month. This is our transparency of work among our staffs and clear-cut instructions for prioritize the issues.

The regular monitoring of our work is strengthening the project work in the field. I am keenly observing all the activities for betterment of our work to reach our Vision. During the year, we have got opportunity to get partnerships with three prestigious donors for our three dream projects i.e. Empowering Rural Women Project (ERW) at Mihinpurwa Block sponsored by SDTT, IIMPACT-DEHAT Rural Girl Child Education Project at Jamunaha, Shravasti & Uttar Pradesh Participatory Forest Management and Poverty Alleviation Project-UPPFMPAP in Sonbhadra District with the support of Govt. of Uttar Pradesh and Japan International Cooperation Agency (JICA).

First time, we are recognized to hold the responsibilities as a **Nodal Support Organization** for a very prestigious project of Japan International Cooperation Agency-JICA and Govt. Of Uttar Pradesh. We have 4 partner NGOs in this initiative to provide hand holding support. Similarly, DEHAT is partnering with 15 grass root level NGOs under it’s UNICEF supported Child Health & Nutrition Intervention Project.

I congratulate all the Board Members as well as all staffs to achieve a milestone in 2010-11 through their full efforts, dedication and sincerity about their jobs. I also thank to the partner community and individuals and all stake holders including funding agencies to support us in favoring in implementing the projects in the

area.

Yours truly,

**Dr. Jitendra Chaturvedi,**

Chief Executive

## Acknowledgements

We sincerely acknowledge the support provided by the agencies and our honorable community.

Our all the efforts made during the Action Year-2010-11 were made possible only due to the financial support provided by the following donors:

- UNICEF
- Child Rights & You-CRY, New Delhi.
- BAIF Development Research Foundation-Pune.
- Project for Appropriate Technology to Health-PATH International.
- Japan International Cooperation Agency-JICA
- Sir Dorabji Tata Trust- Mumbai.
- IIMPACT- Gurgawan (Haryana).

We devote our sincere thanks to the following associations and networks for their guidance and support in our grass root level efforts:

- United Nations Civil Society Organization's Network (CSO Net)
- White Ribbon Alliance-USA
- Asian Human Right Commission-AHRC, Hong Kong
- United Nations Millennium Campaign-UNMC
- Wada Na Todo Abhiyan-WNTA
- Supporting Association for Thematic & Holistic Initiatives-SATHI, Uttar Pradesh
- Uttar Pradesh Voluntary Action Network, Lucknow
- Quality Institutional Care & Alternative for Children-QIC&AC, Uttar Pradesh

To advocate the grass root level issues related to the deprived sections, the media has given tremendous response and support to our efforts. We are thankful to:

We are thankful to the all the Govt. officials who have given ever support to do our best for the betterment of the marginalized sections of the society.

Our acknowledgement will not be completed without thanking our staff & their family members, volunteers and community leaders.

## About Us

### 1. Genesis

Developmental Association for human advancement (DEHAT) was first established at the behest of some young people from Bahraich district in Uttar Pradesh. Bahraich has been identified amongst 100 most backward districts of India by the Planning Commission.

DEHAT first started out as a school for 'Tharu' tribals and forest children. Ten years later, on 21<sup>st</sup> Aug'2000 it was registered under Society Registration Act 1860.

We firmly believe that no society can hope for sustainable development unless its children are assured of their survival, protection and participation in the development process.

In 1990, the United Nations Convention on the Rights of the Child (CRC) came into effect establishing a comprehensive set of rights for all children. We realize that this cannot be translated into reality in absence of focused intervention on capacity development linking child rights policy and practice.

Thus, Children remain the nucleus of all our work through which we aim at human advancement. A child is affected first and foremost by his immediate family and neighborhood situation. With this view, today DEHAT is involved in a multitude of community organization and development activities besides advocacy, awareness and rights struggle. Our intervention at policy making and/or influencing government is driven in the interests of the children particularly those coming from marginalized and oppressed sections of the society.

### 2. Philosophy

Thought of DEHAT is to sustain the development, after any of our implementation, can ensure the mobilization of the targeted population to take active part in their own development.

DEHAT seems children are future generation of our society. Generally children have certain common moral status & thoughts. We can't deny their personality as they are human beings. Since children are more sensible and curious to learn than adult, so we can bend their mind for the good one. In adult age most of the people loss their zeal. In our society people believe that a child can perform selected work only, whether an adult have all rights to do anything. Even a child have not right to involve in their own matters decided by their parents/ guardians. What makes children a special case for philosophical consideration is the combination of there humanity and the youth or more exactly there are our next generation of the society, if we ensure the child rights which are needed for the sound development of a civilized human being of children, we can fulfill the dream of a sustained and developed society.

## The Geographical Coverage

‘DEHAT’ is intervening as under:

## Key Strategies of the year

‘DEHAT’ is already strengthening the community organizations of the poorest families at community, hamlet, village, Gram Panchayat and block level in the adopted areas. ‘DEHAT’ provided its technical support to control the local issues as per project requirement through regular meetings, trainings and exposures to undertake all the developmental activities at their own with ensuring social justice and equity.

DEHAT also organize training, exposure and sensitization efforts for the elected members of Panchayats and

Gram Sabha to strengthen the rural self-governance system.

‘DEHAT’ initiated the learning centres, where 1078 Girls child, who never attended schools are covered. ‘DEHAT’ also rendered their work for forest management & poverty alleviation programme in U.P.

Consequently, we intend to offer these efforts to the people only up to the time when they are empowered enough to leverage all these facilities at their own. There after we see our role only as an educator and facilitator.

## ‘DEHAT’ Running Projects at a Glance: 2010–2011

‘DEHAT’ design its projects by keeping the children in focus. During the action year-2010-11, the projects were as follows:

| S. No. | Project Title                                                                                             | Funding Agency                                                | Covered District               | Covered Blocks                                               | Covered Gram Panchayats |

# Programme Area-1

## RURAL GIRL CHILD EDUCATION ROJECT

(A Project for Educating Non-school going and Drop-out Girl Child )

Supported by the IIMPACT, Gurgaon, Haryana

### The key Objectives:

- To provide free of cost quality education from 1 to 5<sup>t</sup> class to the Girl Children of the age group of 6-14 Years.
- To sensitize and make community responsible towards the education and especially of girl child.
- To facilitate the community for demand generation for Middle Schools under the provisions of Right To Education Act-2009 and community led advocacy processes.

### Activities Implemented (Inputs given)

- Operation of 30 Girl Child Education Centers.
  - Three, 5 days capacity building of the child right teachers
  - Two days training of teachers & RGCEP staffs on health & nutrition supplement among child and adolescent girls.
1. Formation, orientation & hand holding of Centre Management Committees
  2. Celebration of Independence Day, Eid-ul-Fitar, Teacher's Day, Gandhi Ja Yanti & Republic Day at centre level.
  3. Exposure visit of teachers for historical learning (Shrawasti)
  4. Providing free books and teaching learning materials to all the girls.
  5. Organized Art, painting, & G.K. completion among the girls.

### Outputs achieved

1. Covered 1078 Girls child of 30 Gram Panchayats of Jamunaha Block. Mostly, those children were totally illiterate and far from customs & behaviour of civic societies. Now they are learning in a pleasant environment with full support of its family & community.
2. Formed 30 BSACs (Balika Shiksha Adhikar Committees) on community level consisting about 1000

members (Parents of covered Girl Child) in the covered area. They are literally very much oriented and Committees are functional.

3. The change has been seen in life style, language & practices about health & hygiene in covered girl child and its family up to 70%.
4. 18 Girls (aged between 5 to 16 Years) has been saved from Child marriage in this year. Their parents & guardians motivated and girls are receiving quality education in our centres.
5. 30 Community level women teachers has been trained by our organisation and employed in this project to deliver sophisticated teaching in punish less & healthy environment.
6. 90 (30 First, 30 Second & 30 Third Prize) girls get prize in art completion and shows their talents in creativity.

### **Impact (Changes resulting from output)**

1. 1078 out of school girls became enrolled in learning centre and now studying regularly.
2. 30 BSACs (Balika Shiksha Adhikar Committees) became functional and took their responsibilities to hold the centre management.
3. Health & hygiene practices can be seen in 70% girls.
4. A strong message spread out in intervention area as well as other villages, against Girls child marriage.
5. 18 Girls (aged between 5 to 16 Years) has been saved from Child marriage in this year. Their parents & guardians motivated and girls are receiving quality education in our centres.
6. Rural girls of intervention area started to participate in various types of competition organized by organization.

### **Case Study**

#### **I became de-addicted & rehabilitated**

My name is Manju; 13 Years old drug addicted girl, belongs to a Schedule Caste totally illiterate family of Mr. Ram Babu and Smt. Anita of village Motipurwa, Gram Panchayat Satarahi, Block- Jamunaha, District- Shrawast. I had been working as agriculture labourer along with my rest of family members, doing domestic works before starting of IIMPACT-DEHAT Girl Child Education Centre in our village.

Due to my parents and relatives Mause and Mausie I had addicted of raw alcohol for intoxication. At one night I had drunken the remaining Alcohol in very few quantity of the bottle, which was left by our parents. At random I seemed that its taste is very bad, but after some times of taking alcohol it was fantastic feeling. So, I started stealing of alcohol from my parent's bottles and initiated drink heavily. And I became addict of Alcohol.

From March 2010 IIMPACT-DEHAT has started Girl Child Education Centre in our village. I took admission in the education centre. Initially I & my friend Shiela (my peer) were use Alcohol and Cannabis even at the time of study. But one day when we were making the plan to drink, my teacher Ms. Sudha Pandey hear the matter silently and conveyed to Project Coordinator Mr. Sanjeev Kumar for solution of this strange problem. Now my teacher started behave with me very somatically and started me understand about bad effects of alcohol & drugs on children health and mind. She started engage me in study with joyful and game methods to forget the need of these substances. Lastly after tedious many psychological counseling by Project Coordinator & teacher I and Shiela left out from the dangerous jaws of addiction.

## Programme Area-2

### **EMPOWERING RURAL WOMEN –ERW**

**(A Project for Empowerment of rural women supported by Sir Dorabjee Tata Trust, Mumbai)**

The project Empowering Rural Women-ERW was initiated in Bahraich District at Mihinpurwa block. The project has been implementing in 10 Gram Panchayat for the period of one year to empower the women of these villages for their livelihood and for other rights through right based approach. The project started from 01<sup>st</sup> of Feb. 2010 in above area.

Goal of the project is to empower the rural women about their rights, especially right to work, right to food & right to living with dignity and right to equality in the community.

#### **The Key objectives:**

1. To form and enable Mahila Sangathan (women organization) at hamlet level and bring them together at Gram Panchayat level and block level for strengthening their voices in open Gram Sabha meetings and front-line govt. personnel and officials for participatory governance and development.
2. To develop leadership among rural women and ensure their access to govt. schemes, programmes and Act related to right to food, right to work and empower them in a sustainable way.

#### **Activities Implemented**

- Observing World's Women Day and focusing on right to work & right to food.

- Orientation of selected women leaders on basic functions of local PRIs and rights based approach to development.
- Running Village Resource Centers
- Exposure Visit of Women Leaders
- Exposure Visit of Women Leaders
- Orientation of Selected Women Leaders on provisions and procedures of MNREGA and PDS
- Training of Elected Women Leaders on Leadership Development
  - Interface workshop of Women CBOs with Village Secretary, Pradhans and Block level Govt. Officials (Area Level Event)
  - Training on Prevention of Human Trafficking Act. For 12 ERW Workers and 15 CBOs members.
  - Training on Disaster Management for two Flood effected ERW covered villages.
  - Certification of Physically challenged women.
  - Protest against decision to closing of Central State Farm,
  - Demonstration on Mazdoor Divas 01<sup>st</sup> May 2010.

### **Outputs achieved**

- 500 CBOs member participated in the World's Women Day and oriented on women's rights.
- 10 village resource centers (village wise) have been established during reporting period.
- A exposure trip was organized on 9-11 Nov. 2010 with 7 women leaders and 2 staff to Sristi Sewa Sansthan-Maharajganj. During the visit, the leaders have learnt a lot on CBO initiatives towards their rights.
- 350 applicants participated and 1086 application were submitted in interface program, on various development issues by women CBO members
- A workshop on prevention and awareness on human trafficking was organized with ERW team, community leaders and stakeholders at District level.
- 39.54 Lacs Rupees wage mobilized in MNREGA in 10 GPs
- 1380 women benefited with Govt. schemes like JSY, Balika Ashirwad Yojana, Mahamaya Awas Yojana, Smart Cards Yojana, Mahamaya Arthik Madad Yojana and Widow Pension etc.

### **Impact (Changes resulting from output)**

- 45% women participated in open Gram Sabha, during period.
- After the panchayat election 10 Gram Sabha open meeting done in 10 GPs. In the Karikot GP a special decision has been taken to organize the open meeting on 8<sup>th</sup> day of every month on regular basis.
- MNREGA annual micro planning started by Panchayat with involving local community in 10 GPs
- Community started demanding for job cards, work under MNREGA and unemployment compensation in written formats.

- 1380 women benefited with various Govt. schemes, presently community started accessing the village resource centers regularly.
- Use of Help Line Numbers of MNREGA, PDS etc. by beneficiaries, especially women laborers, has been increased in comparison to other blocks of the district.

### **CASE STUDY**

#### **PDS Shopkeeper Surrendered before the Mahila Adhikar Manch**

I am Marri Devi, 28 years old my husband's name is Manohar, living in Hazaripurwa Hamlet of Karikot Gram Panchayat of Mihinpurwa Block of Bahraich District. I am B.P.L. card holder and was getting only 15 K.Gs. of ration on card per month. I got aware on various rights in March 2010 when DEHAT organization started to implement Empowering Rural Women Project (ERW Project) in my village. I joined Mahila Adhikar Manch, formed under the project by DEHAT Organisation in March 2010. DEHAT team provided us the information that Govt. distributes the ration on subsidiary price & these subsidiary margin money come from tax paid by us through various sources to Government. DEHAT provided us these knowledge for various rights amongst the women members of Mahila Adhikar Manch. This information was strengthening me to fight for our rights provided by Government. After this, very next day I along with 40 other members of Mahila Adhikar Manch visited to Ration shop and shown the card to the ration shopkeeper Mr. Nisha from distance and demanded full ration. He refused for providing right quantity to us. Then we backed after giving him warning that we will not accept less ration because we have right to get accurate quantity of ration. The shopkeeper chased us and said that you cannot do anything against me because I bribe to S.D.M. to M.L.A. Then we warned him that we will use Right to Information Act and it is challenge for you to save yourself from us. Immediately the face of shopkeeper dried to hear Right of Information and he proposed 25 KG grains initially, then 30 KGs food grain and finally we agreed to take 35 KGs food grains from ration shop per month. We are getting now complete ration as per Govt. norms through movement of Mahila Adhikar Manch organization formed by DEHAT under the project.

- Community participation is increasing in monitoring and observation during R.I. days, VHNDs and WHNDs.
- Importance and acceptance of iodized salt among community increased.
- An environment for importance of Vit. A supplement created and community paying attention on it.

### **Case Study**

#### **A never immunized village converted into 100% Immunized Village**

Thogawa Pahari Tol is a revenue village of Rajkhad Gram Panchayat of Dudhi block of Sonbhadra district situated at a distance of 8 Km from block and 109 Km. from district headquarter. There is no road connectivity by any means. There are 54 households of Baiga and Gond Tribals. The literacy rate of the village is only 12%. They have never taken any kind of immunization services due to some mis-conceptions. They believe that due to the immunization, the lord become angry and the children fell ill.

During BSPM, the Block Coordinator of DEHAT has visited the village. He conducted door to door visits with ASHA and ANM to convince the households for immunization. After home visits, a meeting was also organized.

After a two hours long meeting, all the households became agreed to immunize their children and pregnant women.

Immediately, an immunization session was organized in the village, in which 12 children up to 2 years and 6 pregnant women were immunized.

# Programme Area-5

## Uttar Pradesh Participatory Forest Management & Poverty Alleviation Programme

**(Supported by Japan International Cooperation Agency-JICA through Govt. of Uttar Pradesh)**

The Uttar Pradesh Participatory Forest Management and Poverty Alleviation Project are launched in fourteen districts of Uttar Pradesh with the support of Japanese International Cooperation Agency (JICA), it is popularly known as JICA Project.

We are working in 56 remote Tribal dominated villages of Duddhi, Wyndomganj and Myorepur forest Ranges of Renukoot Forest Division of most Naxal affected Sonbhadra district of Uttar Pradesh.

DEHAT led four Partner NGOs in Sonbhadra District of U.P.State for this project in 56 GPs of 3 Blocks of the District. About 2830 forest villagers are attached with the project in the area. They belong to mostly ST & SC communities. This project is handled by DEHAT as Nodal Support Organization (NSO) from February 2010.

### The Key Objectives

- To restore degraded forest and to augment forest resources.
- To secure sustainable forest management by improving forest administration, community organizations and other stakeholders.
- To conserve and better manage the wild life.
- To improve the income of target forest dependents and their livelihood options.

### Activities Implemented (Inputs given)

- Road mapping of the target villages
- Village selection meetings and prioritization of the villages
- Consensus Building Meeting (CBM)
- Identification of Forest User Groups (FUGs)
- Notification of Village forest patch
- Identification and survey of forest area
- Demarcation and mapping of forest villages
- Notification of village forest area by DFO
- Village wise Core group formation
- Regular Meeting with P-NGOs
- Regular Meeting with Field Management Unit (FMU)
- Self –Review Meeting with NSO Experts
- Constitution and registration of Joint Forest Management Committee (JFMCs)
- Village wise Micro-Planning through Participatory Rural Appraisal (PRA)

### **Outputs achieved**

- Village wise road mapping of 26 out of 57 villages
- Consensus Building Meeting completed in 26 target villages.
- One member from each family is registered in the FUG list.
- Constitution of 26 Joint Forest Management Committees in 23 targeted villages.
- 23 Villages Micro-Planning completed through Participatory Rural Appraisal (PRA)

### **Impact (Resulting from output)**

- JFMCs are actively involved in protection of forest area by stopping illegal forest cutting.
- JFMCs get ownership of selected area of forest land protection after demarcation by the department.

## **Programme Area-6**

***Vision***

A child centered society in which all children enjoy their rights and lead fulfilling lives.

***Mission***

To empower the deprived and under privileged sections of the society to ensure basic rights of the children

***Approach***

‘DEHAT’ has always used the motto of ‘to empower deprived people to be what they want to be and do what they want to do for realizing their rights. Therefore, ‘DEHAT’ adopted its attention on this thought from the beginning to develop self consciousness and leadership quality in the target communities. ‘DEHAT’ has adopted ‘Right based approach’ in implementing all the activities at grass root level. We never lead but aware and promote people’s leadership to solve their problems.
